**SECTION A**

**1 B**

The double entry for the new share issue is:

Dr Cash (100,000 × \$4)	\$400,000
Cr Share capital (100,000 × \$1)	\$100,000
Cr Share premium (bal. fig)	\$300,000

Therefore the balance will be \$50,000 + \$300,000 = \$350,000

**2 A and B**

**3 \$12,300**

$$\$12,500 + \$600 - \$800 = \$12,300$$

**4 \$910**

$$\$750 + \$1,135 - (\$7,650 - \$6,675) = \$910$$

**5 D**

**6 C**

**7 \$514,000**

Cost	\$400,000
Accumulated Depreciation	(\$64,000)
(400,000/50) × 8 years	_____
Carrying amount at 31/12/X9	\$336,000

$$\text{Revaluation surplus} = \$850,000 - \$336,000 = \$514,000$$

**8 A**

Receivables			
	\$		\$
Bal b/d	65,000	Cash received	182,500
<b>Sales</b>	<b>188,950</b>	Irrecoverable debts	1,250
		Contra with payables	1,700
		Bal c/d	68,500
	_____		_____
	253,950		253,950
	_____		_____

**9 B**

Overdraft per bank statement	(\$865)
Add: unpresented cheques	(\$265)
Less: amount deducted by bank in error	\$325
	<hr/>
<b>Balance per cash book = credit balance</b>	<b>(\$805)</b>

**10 B**

**11 A**

Sales tax			
	\$		\$
Purchases	300	Sales	250
(\$3,300 × (10/110))		(\$2,500 × 10%)	
		Bal c/d	50
	<hr/>		<hr/>
	300		300
	<hr/>		<hr/>
Bal b/d	50		

**12 D**

Cost = \$300

NRV = \$280 – \$75 = \$205

Per IAS2, inventory is valued at the lower of cost and NRV

**13 C**

Any balance on the revaluation surplus account will always be a credit balance.

**14 B**

It is not probable that there will be an outflow of economic benefits resulting from this situation, and therefore no provision can be recognised in the financial statements. However, it is a contingent liability and the nature and potential financial consequences of the situation should be disclosed in the financial statements.

**15 C**

**16 C**

**17 C**

**18 C**

$$\begin{aligned} \text{Gross profit margin} &= (\text{gross profit}/\text{revenue}) \times 100 \\ &= (\$1,081,250 - \$432,500/\$1,081,250) \times 100 \\ &= 60\% \end{aligned}$$

Make sure that you did not use the operating profit figure by mistake.

**19 B**

There are 400,000 shares (200,000/0.5)

$$\text{Interim dividend} = 400,000 \times 0.30 = \$120,000$$

Proposed dividends are not accounted for in accordance with IAS 10.

**20 \$195,000**

$$\$185,000 + (\$170,000 - \$160,000) = \$195,000$$

**21 B AND D**

A subsidiary normally requires more than 50% ownership of shares (B Co) and an associate normally requires ownership of between 20% - 50% of the shares (C Co).

**22 \$2,350**

The invoice amount will be  $\$2,500 \times 94\% = \$2,350$  after deduction of trade discount. Early settlement discount is not deducted at the point of sale as Pop does not believe that Weasel will make early settlement.

**23 \$750 LOSS**

$$\text{Annual depreciation} = \$5,000/4 = \$1,250$$

$$\text{Carrying amount of the car at disposal} = \$5000 - (3 \text{ yrs} \times \$1250) = \$1,250$$

$$\text{Profit/(loss)} = \$500 - \$1,250 = (\$750)$$

**24 \$135,000**

Opening liability \$130,000 plus charge for the year \$145,000 less closing liability \$140,000 = cash paid \$135,000.

**25 D**

$$\text{Units of closing inventory} = 48 + 50 + 80 - 90 = 88$$

80 units × \$11.40	\$912
8 units × \$11.50	\$92
	\$1,004

**26 D**

**27 A**

$$\$2,400 + \$83,700 + \$4,700 - \$3,800 - \$3,000 = \$84,000$$

**28 \$3 MILLION**

The development expenditure incurred from 1 October 20X1 can be capitalised.

$$3 \text{ month's} \times \$1\text{m} = \$3\text{m}$$

**29 C**

**30 B**

The cash proceeds of \$3,000 will be classified as a cash inflow within '@investing Activities'. The loss on disposal is an adjustment within 'Operating Activities' and therefore is not an investing activity.

**31 D**

**32 A**

Reducing an accrual will decrease expenses and therefore profit will increase. Liabilities will also decrease, thus increasing net assets.

**33 D**

**34 A**

Dividends are not an expense so there will be no profit impact.

**35 B**

Goodwill and non-controlling interests are accounted for when a subsidiary is acquired. They are not relevant issues when accounting for an associate.

## SECTION B

### 1 POODLE GROUP

#### Consolidated statement of financial position as at 30 June 20X4

	\$
<b>Assets</b>	
<b>Non-current assets</b>	
Property, plant and equipment (\$450,000 + \$321,825 + \$100,000 FV uplift)	871,825
Goodwill (W3)	16,000
Investments (\$300,000 – \$270,000 re Setter)	30,000
<b>Current assets</b>	
Inventories (\$75,000 + \$45,500 – \$4,000 PURP)	116,500
Trade and other receivables (\$32,000 + \$43,175 – \$20,000 Inter-co)	55,175
Cash and cash equivalents	3,000
	1,092,500
<b>Total assets</b>	
<b>Equity and liabilities</b>	
<b>Equity</b>	
Issued share capital	100,000
Share premium	20,000
Retained earnings (W5)	560,400
Non-controlling interest (W4)	82,100
<b>Non-current liabilities</b>	
Loans (\$150,000 + \$17,500)	167,500
<b>Current liabilities</b>	
Trade and other payables (\$100,000 + \$71,425 – \$20,000 inter-co)	151,425
Bank overdraft	11,075
	1,092,500
<b>Total equity and liabilities</b>

<b>Total equity and liabilities</b>	184,930
	<hr/>

**Workings**

**(W1) Cost of sales**

	\$
Opening inventory	20,000
Purchases	145,380
Closing inventory (\$23,500 – (\$5,000 – \$3,500))	(22,000)
Depreciation (((\$199,850 – \$ 48,000) × 20%)	30,370
	<hr/>
	173,750
	<hr/>

**(W2) Administrative expenses**

	\$
Per TB	67,300
Increase in allowance (\$6,000 – \$2,500)	3,500
	<hr/>
	70,800
	<hr/>

**(W3) Income tax**

	\$
Overprovision re earlier year per TB	(1,000)
Tax charge for the year	15,000
	<hr/>
	14,000
	<hr/>

Note: the overprovision for the earlier year in the trial balance is released back to P&L as it is no longer required. You also need to account for the tax charge on the profit for the year in both P&L and also as a liability on the SOFP at the yearend.

**(W4) Retained earnings**

	\$
Per TB	64,000
Profit after tax for the year per P&L	58,885
Less: Dividend paid during the accounting year	(3,000)
	<hr/>
	119,885
	<hr/>

Note: dividends are paid from retained earnings. They are not an expense to be included in P&L.
